FEU Institute of Technology
August 2023 – Expected 2027
BS Information Technology, Specialization in Web and Mobile Applications

St. Patrick School of Quezon City
Year 2017 – 2023
High School (Junior & Senior High School, STEM Strand)
Graduated with High Honors

RELEVANT PROJECTS

PRISM-GUARD: HRIS AND CLIENT MANAGEMENT SYSTEM *(CAPSTONE PROJECT)* | SEPTEMBER 2025 – NOVEMBER 2026

- Built a web and mobile HRIS and Client Management System with NLP-enhanced incident reporting for Praise Security & Investigation Agency Inc., a private security agency in Parañaque City, as part of a 4-member capstone team.
- Developed all modules of the Client Portal, including the client dashboard, incident reporting module, and announcements.
- Managed sprint tracking in Notion, resolved Git merge conflicts, and took part in sprint planning and QA testing.
- Wrote and revised capstone manuscript sections, including the Economic Feasibility analysis and the conclusion chapter, and aligned the system evaluation with ISO/IEC 25010 quality characteristics.
- Presented the system with the team at thesis defense, where it was deemed ready for client turnover.
- Technologies: React.js, Tailwind CSS, JavaScript, React Native, Expo, Node.js, Express.js, REST APIs, Supabase (PostgreSQL, Auth), Groq API (Llama 3.1 8B Instant), Firebase Cloud Messaging, Cloudinary, Google Maps and Places, Vercel, Render, Git.

THE CATALOG LIBRARY – LIBRARY MANAGEMENT SYSTEM | 2-PERSON TEAM PROJECT | JUNE 2025 – JULY 2025

- Co-developed a web-based library management system with separate admin and student interfaces, covering both frontend and backend.
- Implemented core features including book cataloging, user management, and borrowing and return tracking.
- Technologies: PHP, MySQL (phpMyAdmin), HTML, CSS
